# ARAZYME BIO SKIN CARE

Natural proteolytic enzyme which has anti-inflammatory and Anti-microbial activities. It does degrade skin waste, dead keratin, and promote skin metabolism. Arazyme also helps the skin to absorb useful ingredients well.

## Arazyme Facial Gel

Natural proteolytic enzyme which has anti-inflammatory and Anti-microbial activities. It does degrade skin waste, dead keratin, and promote skin metabolism. Arazyme also helps the skin to absorb useful ingredients well.

### Special Features

1. It does not include scrub or acid ingredients such as AHAs and BHAs, which might cause adverse effect on the face. It removes only unnecessary and harmful keratin layers for skin health, which is comparable with other facial gel containing AHAs and BHAs that melt skin keratin recklessly with acid ingredients. There is no need to worry about skin irritation and ultraviolet rays after care.
2. With anti-microbial and anti-inflammatory activity in Arazyme, this product will give the solution against skin trouble such as acne, freckles, blotches, etc.
3. Plant extracts, such as grapes, green tea and persimmon leaves, tighten and protect facial pores while supplying the skin with moisture.

### Usage

- Spread on face except the eye and lip areas after washing face. Rinse with warm water after 5 minutes.
- Use two or three times a week according to skin condition.

# Arazyme Facial Powder

Arazyme Facial Powder is a total facial care powder which makes the face vivid, pure, and healthful. Arazyme(Natural proteolytic enzyme) and low-sensitive surfactants cleanse the face in a mild way, dissolving the keratin layer of the face softly and naturally promoting skin turnover.

## Special Features

1. It does not include scrub or acid ingredients such as AHAs and BHAs, which might cause adverse effect on the face. It removes only unnecessary and harmful keratin layers for skin health, which is comparable with other facial gel containing AHAs and BHAs that melt skin keratin recklessly with acid ingredients. There is no need to worry about skin irritation and ultraviolet rays after care.
2. With anti-microbial and anti-inflammatory activity in Arazyme, this product will give the solution against skin trouble such as acne, freckles, blotches, etc.
3. After care, you will feel the continuous softness and tenderness with plant extracts such as grape and Angelica keiskei.

## Usage

- After face washing, take about 1g and mix with 2ml water on palm. Spread to the face and massage softly around 2~3 minutes. Rinse with warm water.
- Use every morning and evening. (Easy to use because of granule type)
- You can get better effects using Arasense Black when cleansing make-up.

# Vitamin C Active Serum

Vitamin C Active Serum stabilizes vitamin C that oxidizes in high temperatures, providing fresh vitamin C and other effective elements to the skin, regardless of storage period. It is also a dual effect serum with Arazyme promoting the absorption of the vitamin, providing whitening and wrinkle care at the same time.

## Special Features

1. The product is a divided bottle, having stabilized vitamin C combined with glucose in one and glucose enzymes in the other. Once pumped, both are combined, and the vitamin C is absorbed into the skin, while the remaining glucose and enzymes nourish the skin and provide moisture.
2. Effective elements, such as albumin and adenosine, provide greater effects to whitening and wrinkle care.
3. Arazyme opens skin pores and helps absorption of effective elements by removing old keratin, hastening skin metabolism and helping discharge melanin.

## Usage

- Spread on face except the eye and lip areas after washing face. Rinse with warm water after 5 minutes.
- Use two or three times a week according to skin condition.

# Arasense Black/Yellow Natural Liquid Soap

This liquid soap is a deep cleansing & keratin care type (black), and also an anti-trouble & moisture care type (yellow), made from Arazyme and various plant extracts. You may use in a black-yellow order or just separately.

### Special Features

1. Arazyme, palm coconut oil, and extracts from bamboo, Houttuynia Cordata, ginseng, purslane, and licorice help erase strong makeup, eliminate all sorts of wastes from pores, and remove harmful and unnecessary keratin to make the skin clean, soft, and vivid. (Black-type)
2. Arazyme, oils from palm coconut, chamomile, and lavender, and extracts from Houttuynia Cordata and Tea Tree help gently get rid of unnecessary and harmful keratin, handling and preventing various skin trouble and give moisture, making the skin clear and healthy. (Yellow-type)
3. Preservatives, hardeners, artificial colors or fragrances have not been used, making this product a low-stimulate natural soap for those with constant skin troubles and sensitive skin to use safely. There is no skin-stretching feeling, and it will keep moisture to your skin.

### Usage

- Wash face in warm water to open skin pores. Foam up Arasense Black to erase makeup and skin wastes.
- (After using Arasense Black) Wash hands in warm water, foam up Arasense Yellow, and massage face without pressure in fingertips. After massage, wash in warm water and finish in cold water.

# She Wants Feminine Cleanser

She Wants is a refreshing feminine cleanser with Arazyme and various vegetable extracts that keep the pH within the vagina to its healthy low-acid natural state and increase self-purification, restraining harmful bacteria and preventing all sorts of diseases.

### Special Features

1. It cleanses tenderly rather than the strong anti-bacterial chemical products that oxidizes the pH in the vagina.
2. Arazyme restrains multiplication of useless bacteria, giving excellent astringency and moisture protection and providing a refreshing cleansing.
3. Rather than diluted products, this product is easier and safer to use with its foam type base.

### Usage

- Pump 2-3 times, slightly foam up, and cleanse around the vulva. Wash off with warm water when finished.

# B.A.L Bio Serum Balancing Foot Cleanser/Pack/Cream

This foot care treatment protects the daily trodden modern feet and takes care of its health with Arazyme and various vegetable extracts.

## Special Features

1. Arazyme softens and eliminates the thick keratin on the sole, reviving the turnover of the skin cells and making the foot smooth and healthy.
2. Arazyme eliminates the origin of Athlete's Foot fungi; the increasing effects of Silver Mangolia extracts and refined sea salt devour the origin of foot odor and cleanse the foot.
3. Mugwort, ginkgo, aloe, and chamomile extracts, grape seed oil, and Vitamin E derivative (tocopherol) give moisture and nourishment to rough and dry feet, keeping them soft and moist.

## Usage

- Use a small amount of foot cleanser and spread on ankle, sole, and toes, massaging for about 1~3 minutes. Rinse after use. Best to use daily.
- After foot cleansing, use a small amount of foot pack and spread on whole foot, leaving it for 10~20 minutes to absorb effective elements and weaken keratin. Wipe with tissue when finished. Use 1~2 times a week.
- After both foot cleansing and foot pack, use a small amount of foot cream and spread gently on whole foot. Use daily with foot cleanser.

# SP Dental

With natural enzymes and a pure silver element of over 99%, SP Dental removes plaque and odor and prevents cavity, gingivitis, parodontitis, and gum disease.

## Special Features

1. Small silica particles (Kloid silicon dioxide) protect enamel of tooth and eliminate stains on tooth surface, giving a refreshing feeling.
2. Compound enzymes prevent plaque composure, as naturally extracted orange oil and various medical substances stabilize gum bleeding or swelling, giving a refreshing feeling after use.
3. This product has no irritants such as saccharin, gum desiccants such as alcohol, and artificial colors & fragrances.

## Usage

- Add a small amount to toothbrush and continuously brush up and down for about 3 minutes and rinse. (Not wetting toothbrush is much more effective.)
